

HI-PEC HIGH TECHNOLOGY PETROCHEMICAL JSC

2023

COMPANY PROFILE

HI-PEC'S TARGET

"GREENIZE"

"DIFFERENT AND BETTER"

"Greenizing" the paint industry in Vietnam
by bringing together the world's
cutting-edge ecological, high quality, innovative,
and durable products and technologies.

FOREWORD

We are in the 4.0 era, the era of science, technology, AI (Artificial Intelligence), and IoT (Internet of Things). Everything changes and develops at a rapid rate. How does Vietnam keep up with the world?

We have a deep desire for "greenizing the paint industry in Vietnam – to innovatively put on show the world's most ecological, cleanest, state-of-the-art technologies into Vietnam". We have gone all out to push the envelope and finally drawn ourselves towards a **"DIFFERENT AND BETTER"** pathway: We will shake hands with and become a part of the large family of the world's "giant entities" and "special ones", so as to bring Vietnam the latest, finest and greenest products, technologies and achievements.

By bringing into play high technologies as it's main forte itself, empowered by a well-trained, highly qualified team of scientific staffs who are vastly experienced in managerial works in many large companies, Hi-Pec has made it's own Different and Better way. That is: Research, Acquire and Combine the key advantages of paints from different brands from various countries, create new paints and technologies that are best suited to the tropical conditions of Vietnam – the typical challenging requirements which puzzle individual brands.

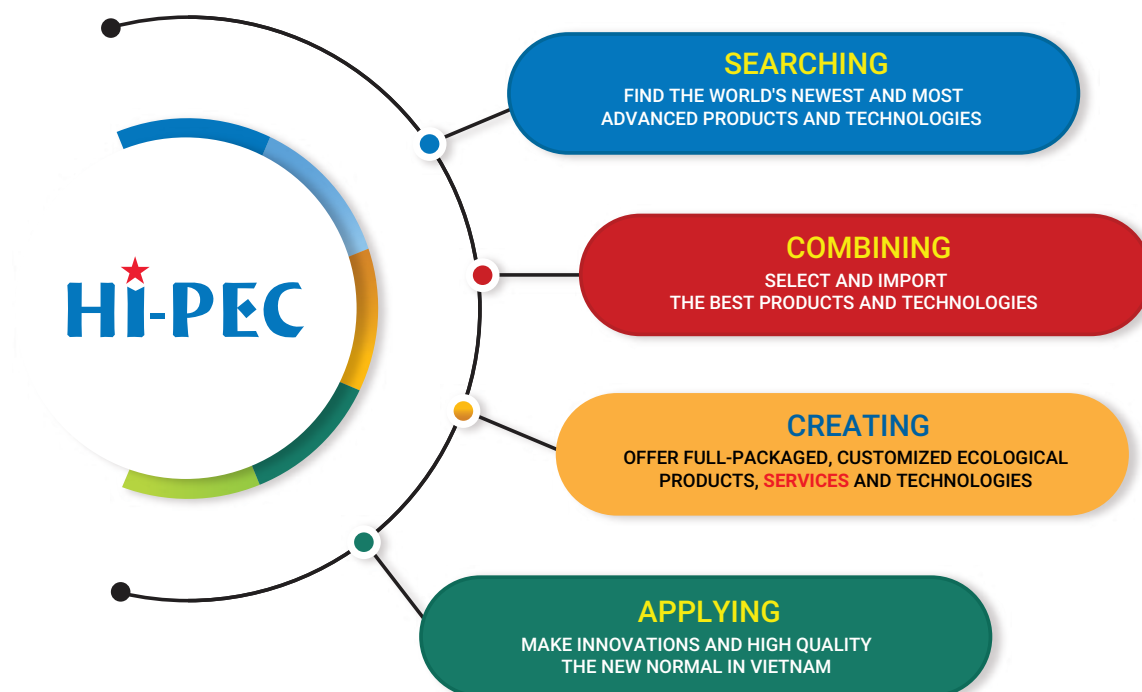

Our **nearly-20-year-old** company, Hi-Pec, has become a member – an exclusive importer and distributor of paints, paint industry materials and equipment – of the world's 16 best and biggest brands coming from USA, Japan, Spain, Portugal, Germany, France, Australia, Singapore, Korea, etc. Our wide spectrum of products, which broadly includes anti-corrosion paints, decorative paints, waterproofing paints, to heat-resistant paints, fireprotection paints, Germ Killer, etc., aligns with our **"DIFFERENT AND BETTER"** motto.

Hi-Pec stands out well against other paint companies in the country not only commercially, but also by providing surface preparation materials, equipment and services, paint application, consultancy and full-package warranty.

This COMPANY PROFILE shows how, and what, Hi-Pec has achieved such lofty targets. Also by this brochure, we would like to deliver thanks to our customers, friends, partners and stakeholders who have given us unswerving support and companionship over the past **nearly 20 years**. We believe that by using modern ecological paints, we will help push Vietnam further into the 4.0 era along with the world.

Best regards
Doctor. Nguyen Thanh Hai

HI-PEC'S BUSINESS PHILOSOPHY DIFFERENT - BETTER

HI-PEC IS EXCLUSIVE DISTRIBUTOR OF:

(USA)

(SPAIN)

(PORTUGAL)

"THINK DIFFERENTLY TO DO BETTER"

DR. NGUYEN THANH HAI

Founder – Chairman

VISION

HI-PEC WILL BECOME ONE OF VIETNAM'S AND THE REGION'S LEADING GROUPS BY 2030

To provide paints, paint industry materials, chemicals and services in a **DIFFERENT AND BETTER** manner

BUSINESS STRATEGY

TO GO FOR MEDIUM-TERM AND LONG-TERM GOALS

To head for stable and sustainable growth. To provide unrivalled products and technologies of the highest quality, eco-friendliness, which are safe for human health and the environment.

MISSION

FOR THE MARKET

TO BRING VIETNAM INTO A GREEN AND CLEAN WORLD

To innovatively localize the world's best products and technologies, so as to create **"DIFFERENT AND BETTER"** products and technologies in the arena of eco-paint, best suited to the local people's health, environment and tropical conditions.

FOR EMPLOYEES

PROFESSIONAL WORKING ENVIRONMENT

To create competitive opportunities for all employees to develop themselves and improve their income by harnessing their own intelligence.

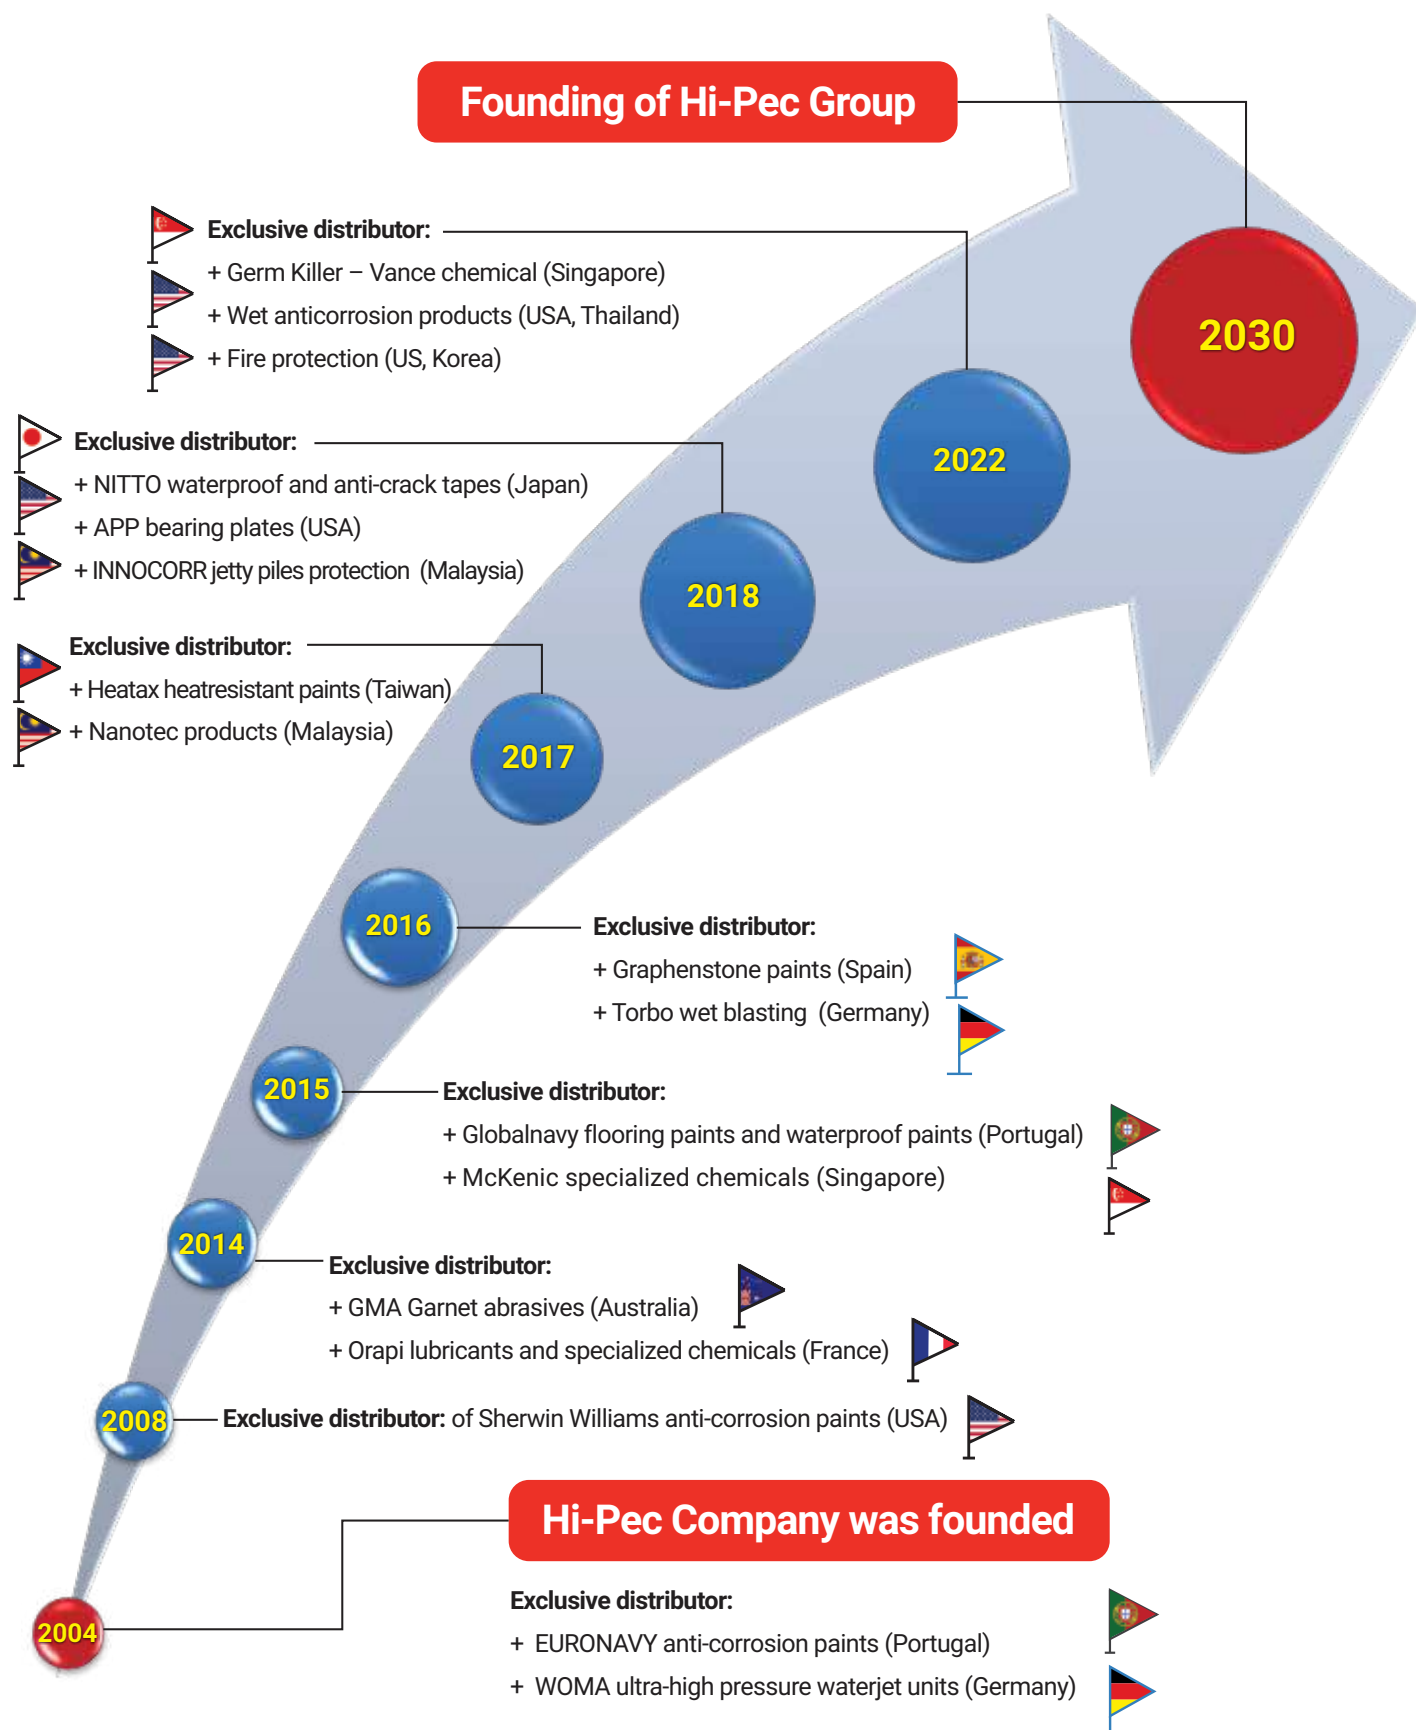

FOR THE
COMMUNITY

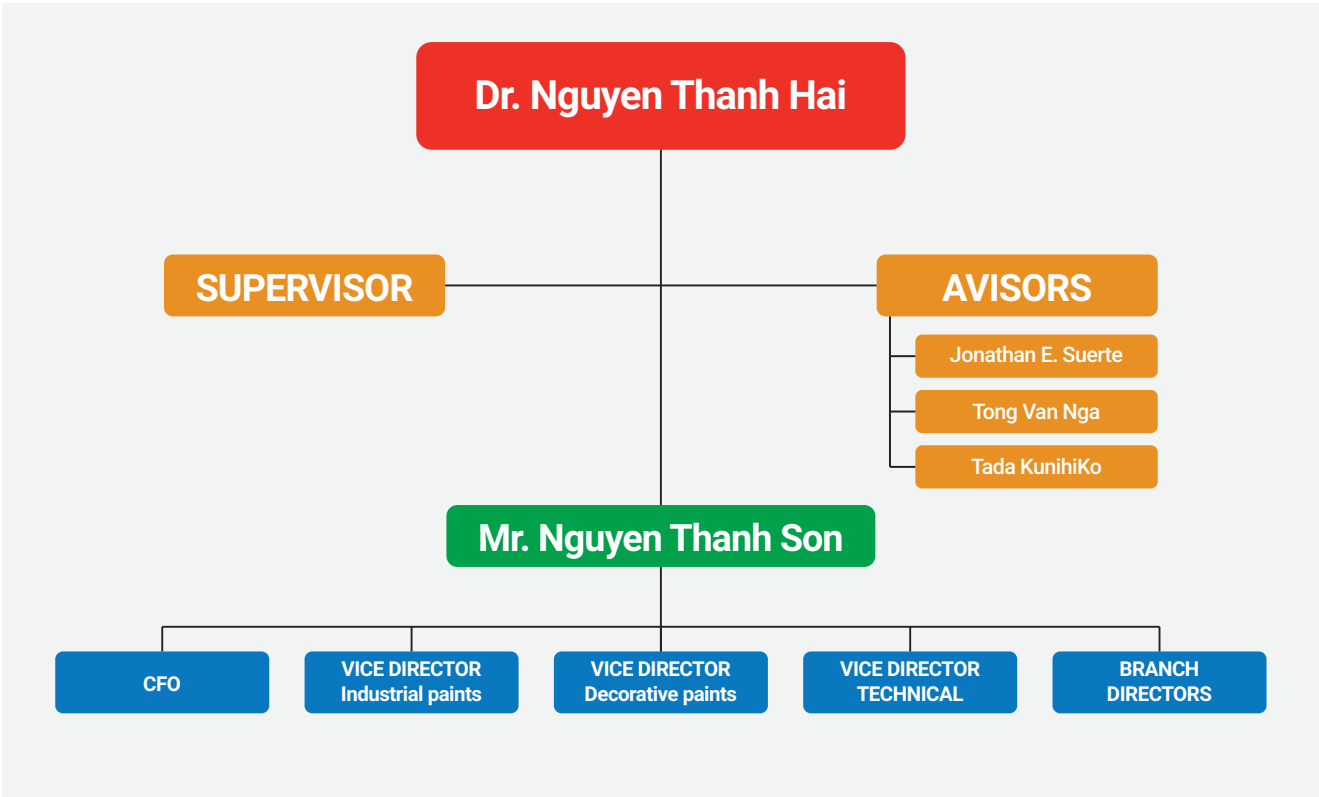

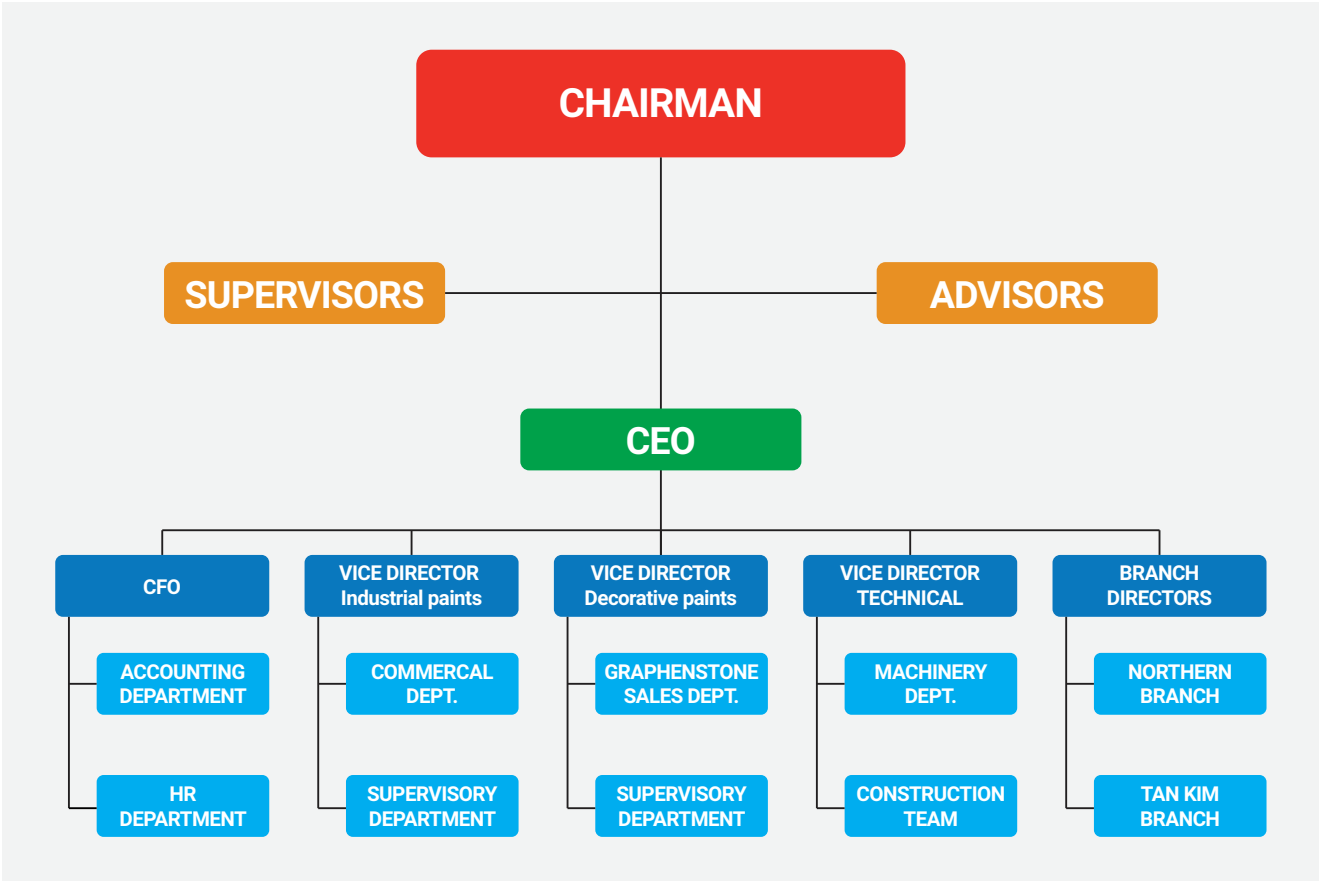

LIVE A
GOOD LIFE

FOR SHAREHOLDERS AND
PARTNERS

MAKE US -
YOU AND
EVERYONE
SATISFIED

1 PHYSICAL FACILITIES

Hi-Pec is fully equipped with modern facilities to carry out painting works at its factory in TAN KIM Industrial Park, Can Giuoc, Long An province, where the Company is organized into the following functional divisions:

- Research & Development Center
- Laboratory
- Test zone
- Production factory
- Warehouse
- Office
- Mechanic workshop

2 EQUIPMENT & MACHINERY

HI-PEC owns and has in place the widest range of G7's most modern equipment and machinery for painting in Vietnam

1. SURFACE PREPARATION

WOMA 2000 ultra-high pressure water jet machine 2500 bar

Torbo using Vapor technology

2. SPRAY PAINTING

Graco XP70 Plural-Component Airless Sprayer

3. INSTRUMENTS

Paint testing equipment

3 WORKFORCE

3 Doctors

50 Engineers

100 Professional workers

4 SUPERVISION & CONSTRUCTION WORKFORCE

HI-PEC has forged a professional team of supervisors and construction workers with intensive expertise and well-established experiences, who are diligently trained in **ISO 45001:2018**, **ISO 9001:2015**; and granted certificates for: T-BIOSIET Safety, Working at Height, Working in Confined Spaces, Fire Prevention and Firefighting, Scaffolding, etc.

ISO CERTIFICATE

ISO 9001:2015 & ISO 45001:2018

TEAMS OF ENGINEERS & SUPERVISORS ALWAYS BEING TRAINED FOR ENHANCED QUALIFICATIONS

PROFESSIONAL TRAINING ON ANTICORROSION

ISO TRAINING

Unlike other companies, Hi-Pec does not only supply paints but also provides a full-service package of surface preparations and paint applications with full warranty.

Hi-Pec combines select products and technologies from other countries to form the most optimal paint system for the climatic and environmental conditions of Vietnam.

UNIFORMED – COMPACT – EFFECTIVE	ORIGIN
1 Protective – Anti-corrosion	Sherwin William (US)
2 Decorative	Graphenstone (Spain)
3 Heat-resistant, Insulation	Heat-Ax (Taiwan)
4 Anticorrosion, Waterproof Materials, Expansion Joint Sealers	Globalnavy (Portugal)
5 Jetty Piles Protection	Innocorr (Australia)

7 Specialized Materials and equipment for the paint industry, Garnet, Scaffolding and Chemicals	Australia, Japan, France, India
8 Fireproofing, Fire-resistant	SW, GraeKorea (USA, Korea)
9 Commercial Services, full-packaged paint products, surface preparation, and paint application services	
10 Equipment rental, Consultancy, Training, Technology transfer	
11 “DIFFERENT - BETTER” special products	

A **ANTI-CORROSION PAINT**

SHERWIN WILLIAM (USA)

The largest paint company in the world by revenue
Over 155 years of history
Presence in more than 120 countries
Revenue of over USD 20 billion per year

**FROM THE HUNDREDS OF SW PRODUCTS,
HI-PEC BRINGS HOME THESE ANTI-CORROSION PAINTS:**

DURA-PLATE 301K / EURONAVY ES301K

Ecological Amine-Cured Epoxy

100% solids, solvent-free, no fire or explosion risk, odor-less
Versatile, good for iron, steel, concrete and wood substrates
Non-toxic, usable for gasoline, food, potable water
100% humidity, no roughness required, no dew point limits
25-year durability.

POLY-COTE 110 / 115

Film thickness of over 1,000 microns,
Can put in service within 24 hours,
Excellent lining for tanks, pipes, vessels, etc.

HEAT-FLEX Hi-Temp 1200

Heat resistant up to 650°C operating temperature

NOVA-PLATE 325

Glass and ceramic-filled tank lining that utilizes advanced novolac technology
for protection against aggressive chemicals stored and processed
at high temperatures and high pressures.

MACROPOXY 860

Versatile, inexpensive, applicable on wet surfaces

FAST-CLAD ER

Fast return-to-service, Solvent-free, Epoxy lining

POLYURETHANES

Excellent product lines for aesthetics and UV protection

EURONAVY ES301K – DURA-PLATE 301K

FOR STEEL WORKS AND CONCRETE WORKS

FSO GALILEAN 7, 305.000 DWT – FULLY COATED WITH ES301K

ES301K – PAINT CERTIFICATES

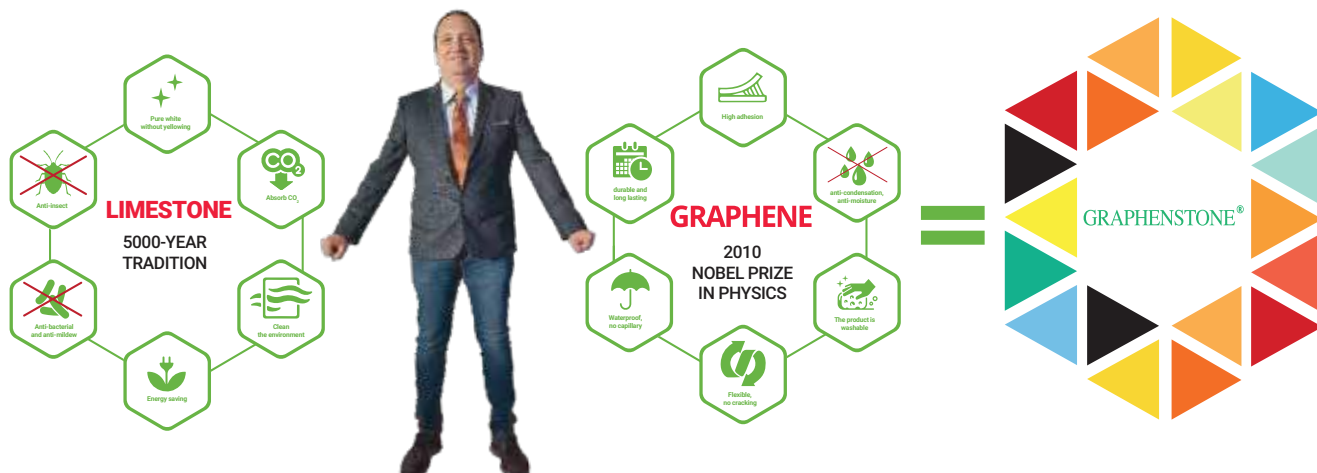

RINA
Registro Internacional Naval

B DECORATIVE PAINTS

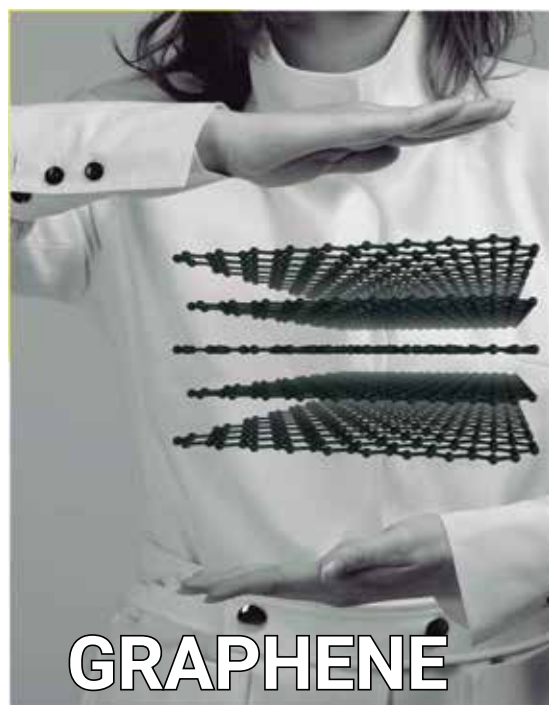

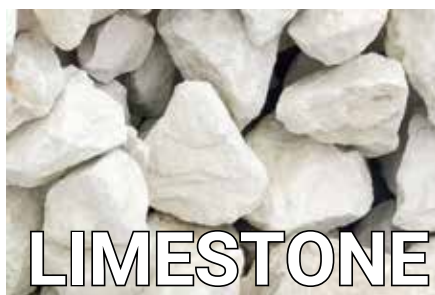

GRAPHENSTONE (SPAIN)

A combination of tradition (Lime) and modern technology (Graphene)

Mr Antonio León Jiménez

FOUNDER – CHAIRMAN OF GRAPHENSTONE GROUP

GRAPHENE

**An invention
that changed
the world**

2010 Nobel Prize

SUSTAINABLE

As thin as 1-millionth of a human hair, 10x harder than diamond, 300x harder than steel.

FLEXIBLE

Bending flexibility of over 20%

HEAT CONDUCTIVE

Scientifically proven to be the most powerful thermal conductive material

ELECTRICALLY CONDUCTIVE

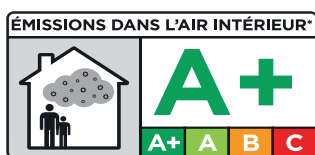

1.000x higher electrical conductivity compared to Copper (Cu)

PAINT FOR Green Generations

**NO PLASTIC, NO VOC, ODORLESS,
ANTI-VIRUS, and BACTERICIDAL**

GRAPHENSTONE ARCHIVED **16** HIGHEST GREEN CERTIFICATES:

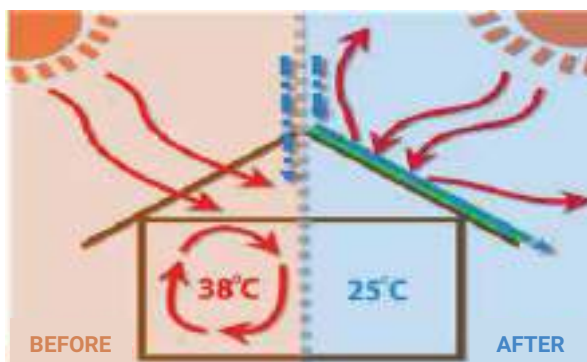

C HEAT-RESISTAN, INSULATION

HEATAX[®]
(TAIWAN)

HEAT REFLECTION, HEAT-RESISTANT PAINTS

**DEVELOPED BY TAIWANESE SCIENTISTS BASED ON
NI-NANO TECHNOLOGY OF NASA-USA**

Cool down to **13°C** indoor

Cool down to **37°C** on roof

- Cut down 30 - 61% electricity bills for air conditioning
- Lifespan of over 15 years, 5-year warranty.
- Increase the material durability by 2-3 times

- Highest heat reflectivity: 90.1%
- Able to reduce the surface temperature to 40°C
- Able to reduce the room temperature to 13°C

HEAT RESISTANCE FOR ROOFTOP – ROOF TILES

HEAT RESISTANCE, WATERPROOF

HEAT RESISTANCE FOR STAINLESS STEEL WATER TANKS

ACHIEVE THE HIGHEST CERTIFICATION FOR ECOLOGICAL FEATURES AND EFFECTIVENESS

- US Intertek SRS certificate for the highest heat reflectivity: 90.1%
- Green Mark Singapore Certificate
- China CMA Certificate for the largest reduction of air temperature: 13°C
- Patent in Taiwan
- SGS Certificate for absence of harmful toxins

USES:

Heat-resistance, waterproof, sound-proof, anti-rust, decoration for:

- Ferrous metal, non-ferrous metal, alloys, concrete, wood, plastics, bricks, stones, paints, glass, ect.
- Houses, offices, workshops, factories.... civil works.
- Fuel tanks, water tanks, pipes, machinery, rainwater reservoirs.

CERTIFICATES

- Versatile, adhere well to most materials.
- Non-toxic, ecological, usable for roof-top water reservoir.
- Effective between 16°C and 400°C.
- Odorless, non-flammable, not generating toxic gases when burned.

- White color of high aesthetics, can be used as exterior paint.
- May be used as insulation paint for cold facilities.
- In addition to heat resistance, the paint's functions are also waterproof, soundproof, anti-rust and thermal insulation.

- Easy to apply, everyone can do it by themselves
- Fast return on investment.
- Resistant to chemicals, petroleum, collision, mechanical abrasion.
- Very resistant to rain, sun and tropical climate.

D ANTICORROSION, WATERPROOF MATERIALS, EXPANSION JOINT SEALERS

GLOBALNAVY (PORTUGAL)

Globalnavy's products:

- Anti-corrosion paints
- Waterproof paints
- Self-leveling Epoxies
- Composite sealer
- Glue for stainless steel, aluminum
- Expansion joints sealers

Unique products with long lifespan and durability
Applicable to wet iron, steel and concrete surfaces

SELF-LEVELING EPOXY FOR THE FLOORS

TYPICAL PAINT SERIES

Self-leveling Epoxy for concrete grounds GN120 and GN132:

- For workshops, apartments, garages, swimming pools, etc., lifespan of over 15 years.

Anti-corrosion Amine-cured Epoxy GN101 LC:

- 100% moisture-compatible solid, only minimal surface preparation needed.
- Used for iron and steel, concrete...
- Service life of over 20 years.

Expansion joint sealer GN220US:

- Anti-expansion, waterproof, anti-vibration – requiring cement for solidification
- Expanding by 200% when dried, allowing coverage by paint, prime powder and cement.

Concrete waterproof paint series HIGLO4:

- Used indoors and outdoors, high durability, excellent waterproof and anti-crack properties.

EXPANSION JOINT SEALER

WATERPROOF MORTAR

SELF-LEVELING EPOXY FOR FLOORS

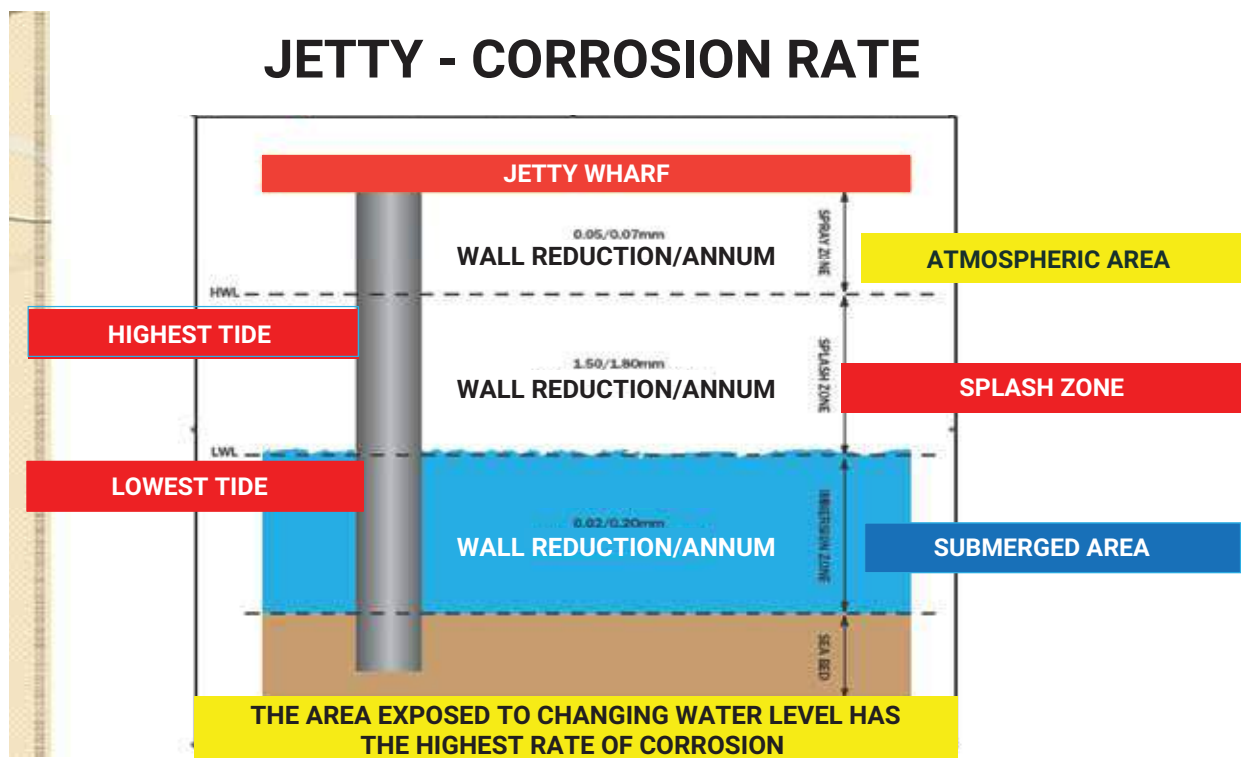

E JETTY PILES PROTECTION

SPLASH ZONE AREAS

INNOCORR (AUSTRALIA – MALAYSIA)

RATE OF CORROSION BY POSITIONS

ORIGINAL JETTY

JETTY TO BE CLEANED OF BARNACLES

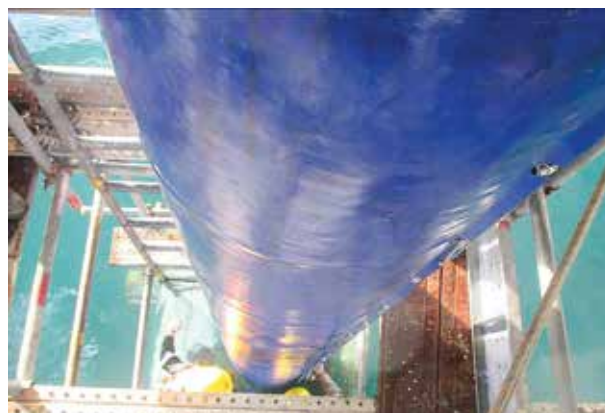

PROTECTING THE JETTY PILES WITH 250 UHD

WRAPPING 250UHD FROM BOTTOM

WRAPPING THE JETTY WITH 250UHD

FINISHED INSTALLING 250UHD

PROTECTED JETTY PILES

F WATERPROOF, ANTI-CRACK TAPES

Nitto (JAPAN)

Waterproof, anti-crack tapes

Used for structural and surface cracks.

USES OF NITTO NO.6931 WATERPROOF, ANTI-CRACK TAPE

- ✓ Edge waterproofing
- ✓ Cracking resistance for small and medium crack
- ✓ Up to 30-year lifespan
- ✓ Resistant to temperatures up to 85°C
- ✓ Fast, easy, low-cost construction
- ✓ Allowing paint and cement coverage

USES OF NITTO NO.6951 WATERPROOF TAPE

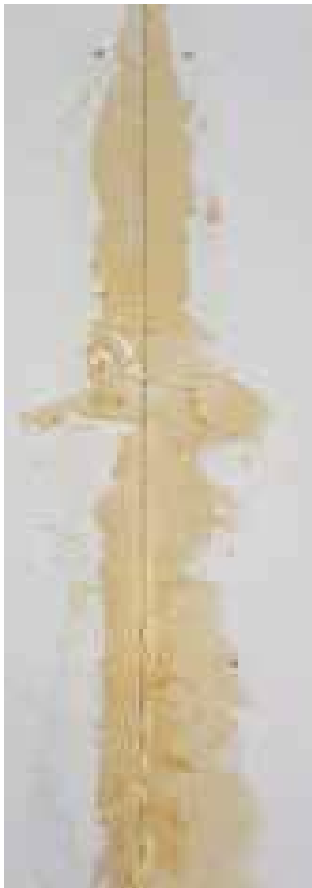

- ✓ Waterproofing for PP, PE, PVC pipe necks.
- ✓ Waterproofing for T-junction corners, irregular shapes.
- ✓ Good adhesion to plastics, concrete, metal, wood, glass, paints...
- ✓ Good weather and chemical resistance.
- ✓ Absolute effectiveness and safety.

USES OF NITTO TAPES

ANTI-CRACK, WATERPROOF

ANTI-CRACK FOR MOLDING, CEMBOARD AND ACOTEC

A BUILDING WHERE NITTO TAPES WERE APPLIED

G SPECIALIZED MATERIALS CHEMICALS AND EQUIPMENT

GARNET ABRASIVES (AUSTRALIA - INDIA)

USES: SUBSTITUTE FOR SAND AND MIXED IN SURFACE CLEANING AND WATER CUTTING

A HAND-SHAKING OF TWO CHAIRMEN

GENERAL INTRODUCTION:

- Australian Garnet is marine-grade, non-toxic and dust-free.
- Very High hardness, great roughness, very reusable.
- Safe, does not cause sparks, non-cancerous
- No treatment required before being discharged directly into soil, water or air.

Garnet abrasives using the following technologies:

vapor, water-driven grinding, and water encapsulation, put together to create an advanced green technology of highest productivity and quality. Garnet abrasives are getting more and more popular in CNC and water cutting industries.

USES OF GARNET ABRASIVES

- 1 Cleaning steel surfaces using Vapor Blasting technology
- 2 Water cutter using Garnet abrasives
- 3 Cleaning a rusted surface with water-encapsulated Garnet abrasives
- 4 Cleaning a concrete surface with water-driven particles
- 5 Cleaning old, rusted paint surfaces using Garnet mixed with water.

H COMMERCIAL SERVICES

GRACO   **(GERMANY)**

1. PROVIDING SURFACE PREPARATION AND PAINT APPLICATION SERVICES

1 Blasting water-encapsulated abrasives

2 Dry abrasive blasting

3 Blasting using CO₂

4 Ultra-high pressure Waterjetting

5 Vapor blasting

6 Wet abrasive blasting

2. PAINT APPLICATION

I MACHINERY FOR LEASE

LEASING SPECIALIZED MACHINERY AND EQUIPMENT

We offer for lease a wide range of equipments including ultra high pressure waterjet machines, high pressure pumps, abrasive blasting machines, plural-component sprayers, Japanese scaffolding, air compressors, solid CO₂ blasters, etc., from well-known brands such as Torbo, Axxiom Schmidt, Ibix, Aquajet, Den-Jet, Graco, etc.

1 Equipment room

2 Portable surface cleaner from IBIX - Italy

3 XP-70 plural-component sprayer from Garco - USA

4 Abrasive blast pots from Axxiom Schmidt - USA

5 Wet abrasive blasting equipment from Torbo - Germany

6 Gondola
